PSA Constructors, Inc.  
1516 E. Hillcrest St. Ste. 310  
Orlando, FL 32803

I am honored to be a recipient of the PSA Constructors, Inc. Scholarship. Your generous support is helping me to fulfill a lifelong dream of going to college. I will be the first one in my family to attend and graduate from college.

This scholarship is going to help me continue in school. Back in January of 2006, my father had a hemorrhage of an artery on his brain, and was in the hospital ICU for a month. He had three brain surgeries performed during that time. Following that, he was out of work for 9 months. The medical bills from all of this have totaled over \$500,000.00.

My first semester as a freshman at Palm Beach Community College has been both challenging and exciting. It seems that academically, I am off to a great start, having made the dean's list for the term. I really love learning and going to school to continue to grow my knowledge.

My plans at this stage are to complete an Associate in Arts Degree at Palm Beach Community College. I then plan to transfer to Florida Atlantic University or the University of Central Florida to study music education. Both universities are noted around the country for their amazing music education programs, and I am fortunate to have the chance to attend.

I am currently working at Jupiter High School teaching the band there, I am enjoying finding out what teaching music is all about. The money from the scholarship will help me achieve my dreams, and share the love of music with other students. I love to teach young people the joy of music, as I remember what it was like for me to learn. I hope to teach high school instrumental music in Palm Beach County after I obtain my Bachelor's in Music Education.

Thanks to generous organizations such as yours, this goal is now within my reach.

Sincerely,

Paul Sauberer
